Kia ora koutou!

My name is Lavanya Sajwan and I am a Software Engineering student at Victoria University of Wellington. I am working on an honours project this year which is about security practices in industry and investigating the influences impacting the decisions of the choice that developers make. This research has been approved by the Victoria University of Wellington Human Ethics Committee (Research Master Application ID: 0000028506).

I am looking to interview professional developers who work with security practices, so if that is you and are interested in participating in this study please send me an email stating your name and job title. From there I'll follow purposeful sampling and select a few people to participate in the study.

If you participate in the interview, you will be given a $10 voucher, and go into the draw to win a $60 supermarket voucher to thank you for your time!

My email is sajwanlava@myvuw.ac.nz.

Thanks!
